

Hyskore®

# WIDE RANGE HOUND® STEEL TARGET HANGERS

UPC/PN	DESCRIPTION	PICTURE
053807 30298 3	30298- This is a cap for a 2"x4" post. It has a pair of intersecting holes so that 1/2" or 3/4" EMT, 1/2" or 3/4" rebar, or 1/2" steel pipe can be fitted through the hole to function as a horizontal hanger for targets. The fixture also includes a semicircular cleat that can be used for hanging chain. Holes at the corners have been provided so that it can be lagged to the 2"x4" post.	
053807 30301 0	30301- This is a multi-function T post cap that will fit directly over a vertical T post or 1/2" rebar. It has 2 semicircular cleats for hanging chain, two chain notches that are drilled through and tapped 1/4" - 20 so that a 1/4" - 20 bolt can go through chain links for securely hanging chain. In addition, it can accept 1/2" and 3/4" EMT, 1/2" and 3/4" rebar, and 1/2" steel pipe to be supported horizontally. It also has a 14mm diameter hole in the face to facilitate hanging steel targets head on.	
053807 30302 7	30302 This is a universal hook for hanging targets directly from 30298 and 30301. You can hang a target face on or off to the side.	
053807 30303 4	30303- An A-frame end bracket (2 required) that is angled at 20° and will accommodate standard T post, 1/2" and 3/4" EMT, 1/2" and 3/4" rebar, or 1/2" steel pipe to act as the horizontal member for hanging steel targets. The two legs can be standard T post or 1/2" rebar. There are semicircular loops for hanging chain in addition to notches which can hang the chain directly and are drilled and tapped for 1/4" - 20 bolts to act as clevis pins to go through chain links.	
053807 30305 8	30305- This is a fixture for hanging chain and has been designed to ride along horizontal T posts such as those set into the 30303 A frame. It also features a semicircular chain hanging loop and is drilled and tapped 1/4" -20 so that a standard 1/4" - 20 bolt can act as a clevis pin to go through chain links.	
053807 30306 5	30306- This is a rider designed to travel up and down vertical T post and can accommodate 1/2" and 3/4" EMT, 1/2" or 3/4" rebar, or 1/2" steel pipe. A set screw locks against the studs on the post to hold position. In addition, it has been designed to accommodate a standard T post to act as the horizontal member.	
053807 30307 2	30307- This is a multi-functional cap for a 2"x4" post that can support 1/2" and 3/4" EMT, 1/2" and 3/4" rebar, and 1/2" pipe or a standard steel T post to act as the horizontal member. In addition, it features a semicircular loop for hanging chain and is drilled and tapped for 1/4" - 20 so that standard 1/4" - 20 bolts can go through chain links.	
053807 30308 9	30308- This is a rider to travel on horizontal 1/2" and 3/4" EMT, 1/2" and 3/4" rebar, or 1/2" steel pipe. It features a semicircular loop for hanging chain. In addition, it has a chain notch that is drilled and tapped so that a standard 1/4" - 20 bolt can be used as a clevis pin to go through chain links.	
053807 30309 6	30309- This is an 8" diameter x 1/2" thick steel target that has 3 standard 16mm diameter holes for using various types of hanging hardware. In addition, it features 2 clevis chain pin mounts that allow a clevis pin to be inserted through chain link so that the target can securely hang.
